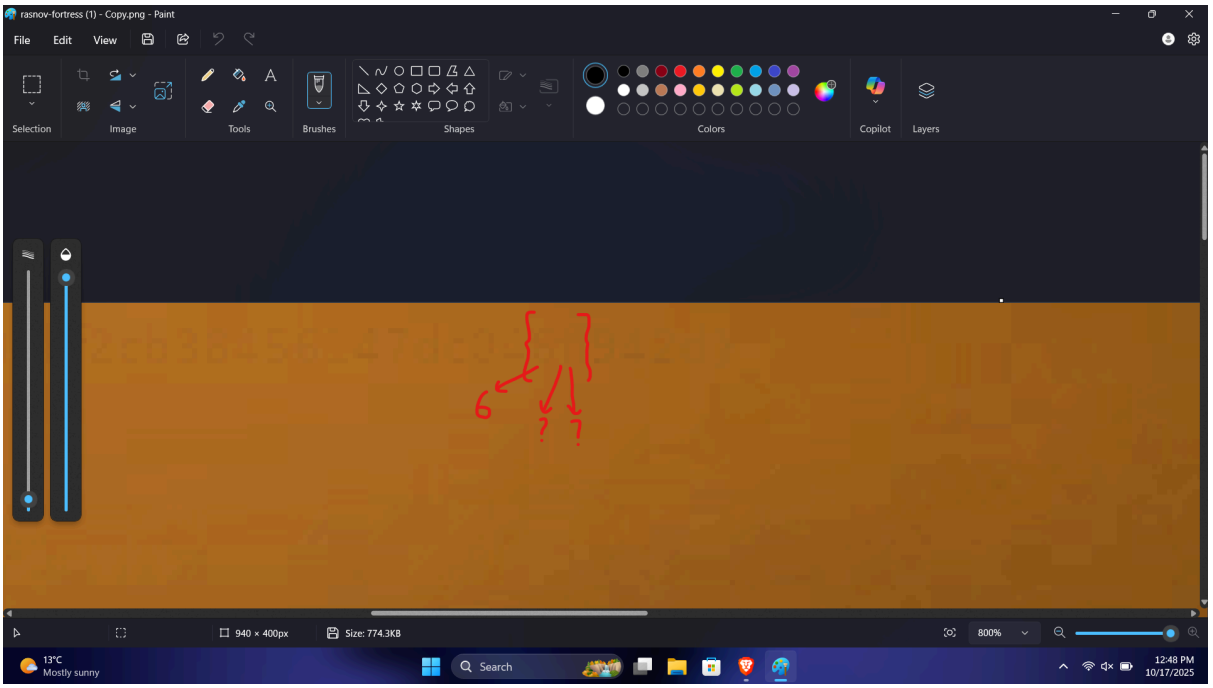
The flag is in the top left corner, but it has some deleted characters. I uploaded the image on **https://georgeom.net/StegOnline/image** and I reversed the colors. This is the image I got :



The deleted characters are at the end, we have to do some brute force, like 00, 01, 02, …, 0a, 0b, …, 10, 11, …, a0, a1, … fe, and finally **ff**

THE FLAG :
