

```
# Connect to the server :  
ssh picoplayer@saturn.picoctf.net -p 49319  
  
# Here we can find a file : "useless". If we run it we will see :  
Read the code first  
  
# If we read the code we'll figure out that the code is useless. If we look at the  
bottom of the file with "cat useless" we can see "Read the manual". one of the tags  
of this exercise is "man", so :  
man useless
