# If we extract the archive in our terminal we can see a lot of files, but there is  
1 visible. We can use the following command to see all the files :  
ls -a
```

```
# After a little research, I found the flag using the following commands :  
cd .git  
cd logs  
ls  
cat HEAD
```

```
THE FLAG : picoCTF{t1m3m@ch1n3_8defe16a}  
~Z4que
