

# At first I tried to add a random username and password, I entered and I checked Storage :

# And I've seen this vulnerability where you can change the admin rights :

Cache Storage		Filter Items				
Cookies		Name	Value	Domain	Path	Expires / Max-Age
https://jupiter.challenges.picoctf.org		admin	False	jupiter.cha...	/	Session
Indexed DB						
https://jupiter.challenges.picoctf.org		cf_clear...	4nw7Bp8F0D...	.picoctf.org	/	Wed, 19 Aug 202...
		password	password	jupiter.cha...	/	Session
		username	username	jupiter.cha...	/	Session
Local Storage						
Session Storage						

Cache Storage	Filter Items					
Cookies	Name	Value	Domain	Path	Expires / Max-Age	Size
https://jupiter.challenges.picoctf.org	admin	True	jupiter.cha...	/	Session	9
Indexed DB	cf_clear...	4nw7Bp8F0D...	.picoctf.org	/	Wed, 19 Aug 202...	310
https://jupiter.challenges.picoctf.org	password	password	jupiter.cha...	/	Session	16
	username	username	jupiter.cha...	/	Session	16
Local Storage						
Session Storage						

# Now refresh the page
