

```
# First of all, I tried to find strings with "strings" command and trim the
possibilities "grep". Then I ran the command :
    strings basic-coms.pcapng | grep f | awk 'length($0) > 20'

# 'f' from the "flag". I also tried with "ctf", "{", etc.
# Then I found : aUGET /?
important=The%20content%20of%20the%20f%20l%20a%20g%20is%20ca314be22457497e81a08f
c3bfdbdcd3e0e443c41b5ce9802517b2161aa5e993%20and%20respects%20the%20format
HTTP/1.1. So the flag is :
CTF{ca314be22457497e81a08fc3bfdbdcd3e0e443c41b5ce9802517b2161aa5e993}

# You can also export files, this is a HTML page, you need to go to "File" ->
"Export objects" and you will find the same file.

THE FLAG : CTF{ca314be22457497e81a08fc3bfdbdcd3e0e443c41b5ce9802517b2161aa5e993}
