

You have to use “binwalk”. When you use it for the first time, you will notice an archive.
Extract it and there will be another image, with another **Matryoshka doll**, but smaller.
You keep the process until you find the file “flag.txt”. You will see that the new **Matryoshka doll** has a different number from the previous one.

THE FLAG : picoCTF{bf6acf878dcdbd752f4721e41b1b1b66b}
