

We need to download *audacity* and open the file. We click right on the menu and select *Spectrogram* :

Now we change the *Rate* to 44100hz and zoom in from 7k to 5k. Also, we need to go at *Spectrogram Settings* and set *Max Frequency* to 7k. If we zoom in, we will see :

Now, we need to $\text{sha256}\{\text{"spectrogram"}\}$

THE FLAG :
