# If we extract the archive in our terminal we can see a lot of files, but there is  
1 visible. We can use the following command to see all the files :  
ls -a
```

```
# After a little research, I found the flag using the following commands:  
cd .git  
cd logs  
ls  
cat HEAD
```

```
THE FLAG : picoCTF{@sk_th3_1nt3rn_b64c4705}  
~Z4que
