

```
# If we open the text file we can see nothing. If we run the command :  
    file flag.txt  
  
# We can see :  
    # flag.txt: PNG image data, 1697 x 608, 8-bit/color RGB, non-interlaced  
  
# We have to change the extension :  
    mv flag.txt flag.png  
  
THE FLAG : picoCTF{now_you_know_about_extensions}
