

```
# We have a restricted Shell. Because "ls" doesn't work, I used :
echo *

# To list the directories :
# abra ala sim

# Now, for each one, I changed the directory and echo the files with :
echo $(<filename)

# Because "cat" doesn't work. For example :
cd abra
echo *
# cadabra.txt cadaniel.txt
echo $(<cadabra.txt)
# Nothing up my sleeve!

# I found the flag in /home/ctf-player/ala/kazam.txt

THE FLAG : picoCTF{y0u_d0n7_4ppr3c1473_wh47_w3r3_d01ng_h3r3_838b49d1}
~Z4que
```
