

# This is the image :

# It's a steganography challenge. After some failed tries ( strings, steghide, exiftool, binwalk, file, LSB, MSB ) I ran zsteg :

```
zsteg -a sconcs.png
```

# And I spotted a YH from YouniHack. I ran :

```
zsteg sconcs.png | grep YH
```

```
# b2,rgb,lsb,yx      .. zlib: data="YH{rcvp_fcnpr_r_vqvbg}", offset=62, size=22
```

# The flag is encrypted in ROT13

THE FLAG : YH{epic\_space\_e\_idiot}
