

The screenshot shows a hex editor interface. At the top, there's a toolbar with a 'From Hex' button, a circular icon, and a double vertical bar icon. Below the toolbar is a status bar displaying memory addresses: 41 42 43 54 46 7B 34 35 43 31 31 5F 31 35 5F 55 35 33 46 55 4C. Underneath the status bar is a row of buttons: 'Delimiter' and 'Space'. The main area is a large white space for input. To the right of the input area is a vertical scroll bar. Below the scroll bar is a section labeled 'Output' containing the text: ABCTF{45C11_15_U53FUL}. Above the output section is another section labeled 'Output' with the text: nsc 65 0-65 (65 selected). The bottom of the interface has a footer with several small icons.

THE FLAG : ABCTF{45C11_15_U53FUL}
