```
# Command :
      dirsearch -u 34.40.42.29:32268
```

Technically, we are looking for hidden directories in server. We will see that
an open directory is : "34.40.42.29:32268/.well-known/apple-app-site-
association". We open the link and download the file, which contains the flag.
